STACK

Agents

Claude Code swarms, Codex, Opencode, harness, MCP, tool calling, evals & guardrails, retrieval grounding, RAG

Models

Claude (Opus, Sonnet, Haiku), Jev, Grok, Gemini, GPT · Anthropic, OpenAI and xAI
APIs · Ollama, LM Studio

Generative AI

Seedance 2.5, Nano Banana, Omni, Suno, ElevenLabs, WhisperX, OpenCV, computer vision, FFmpeg

Backend

Python, Flask, REST, SQLAlchemy, PostgreSQL, SQLite, Pandas

Frontend

TypeScript, JavaScript, AlpineJS, React, Node.js, TailwindCSS, Chart.js

Infra

AWS (EC2, S3, RDS), Azure, Docker, Nginx, PM2, Linux, CI/CD, OAuth 2.0, Twilio, observability, local LLM inference, edge devices

Data

ETL pipelines, web scraping at scale, machine learning, vector DBs, embeddings pipelines, GraphQL, schema design

SELECTED CLIENTS

Mercedes-Benz · Garmin · MGM Resorts · Urvenue · Hakkasan Group · Tao Group

EDUCATION

B.S. Computer Science
Systems Analyst
English C2 · Spanish native

SENIOR AI ENGINEER · AGENTIC SYSTEMS

Roberto Galán

I've shipped production software every year since 1999, and more in the last two than in the previous 25 years, since I stopped writing most of the code myself and started directing coding agents. I help teams turn "we should do something with AI" into deployed, eval-gated systems that give people back hundreds of hours a month. Founder twice, builder first.

10

production AI platforms, end to end, in 12 months

180+ h

of manual work removed every week

99.8%

of sales orders auto-confirmed by an agent

EXPERIENCE

Senior AI Engineer · Agentic Systems

Kynship · 2025 – now

Own the AI roadmap end to end: 10 eval-gated, tool-calling production platforms shipped in a year, partnering with leadership.
Autonomous video pipeline (Claude, Gemini, Suno, WhisperX, FFmpeg, vision) run self-serve by the media team: 30 hours saved weekly.
Creative-analysis engine (Meta Marketing API, vision models, evals) used by the whole strategist team: 120 analyst hours saved weekly.
Retrieval-grounded ad concept generator over 13k+ enriched customer profiles, gated by automated quality checks: ads 10× faster.

Senior Automation Engineer

GreenGrowth CPAs · 2024 – 2025

LLM-assisted audit back-office in a regulated accounting domain: 30 hours saved per audit. QuickBooks → AWS → Power BI pipelines: 16 hours saved weekly. AI voice outreach converting 1% of cold calls.

Founder & Engineering Lead

Bytery LLC · 2013 – now

Founded and scaled a full-stack studio from zero to profitability; technical lead on every engagement. Latest: a WhatsApp-native AI order desk (voice, photo and PDF orders, per-line confidence, human-in-the-loop) with one-click SAP export, auto-confirming 99.8% of sales orders.

Lead Full Stack Engineer

Hakkasan Group · 2010 – 2020

Led engineering for e-commerce across Las Vegas and New York hospitality properties; owned ticketing and venue-management architecture, saving millions in ticketing fees.

Senior Advisor, early team

Investars.com · 1999 – 2010

Dot-com startup tracking Wall Street analyst recommendations: charting and financial data delivery systems. Successful exit.
